<sup>1</sup>The Bachelor of Philosophy degree, BPhil, offered through the Honors College, is available in all University baccalaureate degree programs.

<sup>2</sup>Included here are degrees available in the School of Medicine. This school does not admit students at the master's level. Master's degrees are available, in accordance with departmental guidelines, to those students who complete fewer credits than are required for the PhD degree.

Notes: Figures shown reflect those degree programs which are currently offered, that is, those which currently admit students. However, application to certain programs, and the subsequent awarding of specific, non-terminal degrees in these programs, may be contingent upon departmental guidelines, such as is indicated for Medicine.

The above figures do not include the Combined Major, dual-degree, joint or cooperative degree programs.
