Notes: Degree and certificate programs listed are those which are currently offered, that is, those which currently admit students. However, application to certain programs, and the subsequent awarding of specific, non-terminal degrees in these programs, may be contingent upon departmental guidelines, such as is indicated for Medicine, in which this consideration is applicable to departments throughout that school.

The abbreviation, FP, used in the heading of this table, denotes First Professional.

For ease of reference, preceding each of the following footnotes is the school to which the footnote is applicable.

In this one-year, non-degree program, the student, having received the baccalaureate degree in an arts and sciences major, enrolls in Education as a postbaccalaureate student. A second "professional year" program option exists for those students who wish to pursue the emphasis in Early Childhood Education.

¹¹**Engineering:** Also available is the dual-degree program within Engineering, MSChE/MSPE, and joint degree programs between Engineering and the College of Arts and Sciences, BSE/BA and BSE/BS.
